In 2023 Guernsey Electricity worked in conjunction with The Little Green Energy Company to install the vast community-scale solar array at Grow Limited's newly redeveloped headquarters. The 310 photovoltaic (PV) panels will produce 129-kilowatt peak power (kWp). That's enough electricity to supply power to approximately 35 homes.

"Solar Photovoltaic" is the formal name for these type of solar panels and are commonly abbreviated to "Solar PV" or just "PV". When electric power is generated, it goes directly into your home appliances and if you generate more than you use this gets automatically directed out to the cables in the road and used by the surrounding ...
