

# 280Which photovoltaic panels should I buy

Which solar panels are best for your home?

SunPower, REC, Panasonic, Maxeon, and Jinko Solar offer the best solar panels. The type of solar panel, power output, efficiency, performance in warm climates, warranty, and price are the key factors to assess when comparing solar panels. The best solar panel for your home can depend on your roof space, shading, and climate.

Does SunPower still make solar panels?

SunPower lost its exclusivity with its longtime manufacturer in 2024. Maxeon (also one of the best solar panel brands) still currently manufactures SunPower's highest-quality line of solar panels (the M-Series), but is now able to sell these panels to other U.S. solar panel companies.

How do I choose the best solar panels?

You'll also want to choose panels from a company that backs its panels (and ideally your entire system) with a strong warranty. We reviewed hundreds of solar panel models and found that five brands stand out: SunPower, REC, Panasonic, Maxeon, and Jinko Solar. SunPower, REC, Panasonic, Maxeon, and Jinko Solar offer the best solar panels.

Should you buy a solar PV system for your home?

Well-chosen solar panels can provide a reliable source of renewable electricity for decades, helping to slash your electricity bills and cut your carbon footprint. But buying an inappropriate solar PV system for your home could leave you out of pocket.

Should I buy a solar inverter?

Going solar is a lot like buying a car: not everyone needs a Porsche! Conversely, if you want to save by buying cheap solar panels, your system may produce less electricity over its lifetime, reducing your overall savings. Only you know what is best for your home. Which inverter should I choose?

Are Qcells solar panels a good choice?

Qcells is one of the most popular names in residential solar, thanks to quality equipment and great pricing. SolarReviews research shows that 66% of solar installers now offer Qcells panels, so there's a good chance you could run into a quote for them. Qcells secures the top spot in our 2024 rankings of the best solar panels for good reason.
