Solomon Power also supports the installation of small scale grid connected micro embedded generators that convert renewable energy into electricity that can be used in your home or business premises. Sources of renewable energy can include solar photovoltaic cells (PV) or micro-turbine systems.

AIMS Power inverters are available up to 8000 watts throughout the Solomon Islands in 12, 24 & 48 volt models for off-grid, mobile & emergency backup power applications. FREE SHIPPING (some products excluded)

Maximise annual solar PV output in Honiara, Solomon Islands, by tilting solar panels 9degrees North. Honiara, the capital city of Solomon Islands, is situated in a tropical location that offers consistently...

How much do solar panels cost? The cost of solar panels has continued to reduce with an increased diversity in the panels, inverters and suppliers on the market. You need to ensure that having a grid-connected PV system makes sense for you by meeting your needs at a sensible ...

We design our solar systems for Solomon Island's hot temperatures and remote, rural conditions. We only use GEL lead acid or Lithium batteries; quality components from manufacturers like Victron Energy, and we ensure that we "oversize" the ...

The future looks bright for solar power in the Solomon Islands, particularly in regard to the positive impact it can have in rural areas. Replacing kerosene lamps, candles and generators with a clean energy source and the ability to recharge communication devices such as phones, tablets and laptops is now very achievable at an affordable cost ...

Explore the solar photovoltaic (PV) potential across 2 locations in Solomon Islands, from Noro to Honiara. We have utilized empirical solar and meteorological data obtained from NASA's POWER API to determine solar PV potential and identify the optimal panel tilt angles for these locations.
