

Colombo: WindForce PLC, the leading renewable energy producer in Sri Lanka marks yet again another commemorable milestone with the 10MW agrovoltaic plant, Solar Universe. The plant was commissioned on the 28 th of September and was officially opened by Hon. Kanchana Wijesekera, Minister of Power and Energy, Sri Lanka, on the 11 th of October.

"Agrivoltaics offer a unique opportunity to address energy security in a land-constrained country like Sri Lanka and its agricultural challenges. We are confident that this project will serve as a model for wider applications of achieving sustainable food security and energy access not only in Sri Lanka but also in the region."

Colombo: WindForce PLC, the leading renewable energy producer in Sri Lanka marks yet again another commemorable milestone with the 10MW agrovoltaic plant, Solar Universe. The plant was commissioned on the ...

The key innovation in the ADB-developed project, implemented in Hanthana - Kandy, lies in transparent solar panels, allowing sunlight to reach crops while generating clean energy, and maximising land use efficiency. This initiative marks a significant milestone for the country's clean energy and agricultural industries.

I Grid Holdings is an award-winning company among the solar companies in Sri Lanka, renowned for its reliability, exceptional service, and top-tier quality of work. With years of industry experience, we are committed to delivering innovative and sustainable energy solutions.

WindForce PLC, the leading renewable energy producer in Sri Lanka marks yet again another commemorable milestone with the 10MW agrovoltaic plant, Solar Universe. The plant was commissioned on the 28 th of September and was ...

The Agrivoltaic project in Sri Lanka will benefit tea plantations by allowing sunlight to reach crops through transparent solar panels, promoting optimal growth and increasing productivity. The project will also benefit other vegetable crops by providing a controlled environment with LED lighting systems powered by solar energy, reducing heat ...
