

Will Algeria build a solar PV plant?

The state owned utility for electricity and natural gas distribution in Algeria has signed 19 contracts with local and international companies to construct solar PV plants. In making the announcement recently, the government said the project to produce 3,000MW of solar PV energy is part of its Renewable Energy Development Programme.

Who will fund solar projects in Algeria?

The Algeria government is to fund the solar projects. Sonelgaz has signed 19 contracts with local and international companies to construct solar PV plants across Algeria.

How many solar projects are being built in Algeria?

Representatives of Algerian state-owned utility Sonelgaz have signed contracts with local and foreign companies for the construction of 20 solar projects from two tenders. A total of 19 contracts have been signed by representatives of Algerian state-owned utility Sonelgaz for the construction of 20 solar projects with a cumulative capacity of 3 GW.

Is Algeria ready for solar energy?

Houari Mahi is the head of engineering of Sonelgaz Energies Renouvelables, he explains to Euronews Algeria's potential regarding solar energy. "Algeria has 3,000 hours of sunshine per year, and in the case of Laghouat, it is estimated at 1,800 hours per year. This is enough to push us to invest in the construction of photovoltaic structures.

Can Algeria achieve 15,000 MWp of solar energy by 2035?

To diversify its energy mix, largely dominated by gas and oil, Algeria wants to achieve 15,000 MWp of solar energy by 2035. A call for tenders is underway to install solar power plants in several regions. The region of Laghouat is at the forefront of this conversion: solar kits have been distributed to remote villages and to nomadic populations.

How many solar panels did Algeria install in 2021?

Algeria had installed about 423 MW of solar capacity by the end of 2021, according to the International Renewable Energy Agency (IRENA). This content is protected by copyright and may not be reused.
