

Who is ALPEX solar?

Alpex Solar Ltd., a leading SME-listed solar panel manufacturer since 1993, is headquartered in Greater Noida, India. Our state-of-the-art, vertically integrated facility boasts a fully automatic production line, overseen by a team of 250 dedicated professionals.

How is ALPEX solar sourced?

The capital for these expansions will be sourced through a combination of bank facilities, internal accruals, and equity infusion. Alpex Solar manufactures solar modules using monocrystalline and polycrystalline technologies and offers comprehensive solar energy solutions.

Are ALPEX solar panels a good choice?

Performance of Solar PV Modules installed in plant commissioned in 2016 is entirely satisfactory till date. Quality and performance of the panels is excellent...always up to mark. Highly impressed with services offered by Alpex team, as well as the quality and performance of PV Modules.

How much did ALPEX solar sell?

Alpex Solar's INR745 million (~\$8.95 million) maiden initial public offering of 6.48 million equity shares was subscribed 303 times, with significant interest received from qualified institutional buyers (QIB), high-net-worth individuals (HNI), and retail investors.

Is ALPEX a good company?

You're in excellent company-- Alpex is known for providing excellent service and is regarded by the top professionals in the field. The performance and efficiency of the panels have met our expectations and requirement. We commend your team for the exceptional product and 100% achievement plan vs delivery.

Alpex Solar manufactures solar photovoltaic panels using advanced monocrystalline and polycrystalline cell technology, including bifacial, mono PERC, and half-cut modules. Solar Power Plants: Alpex Solar offers solar power plant solutions, including on-grid, off-grid, and hybrid systems, to harness solar energy for electricity generation.

Greater Noida-based solar module manufacturer Alpex Solar has announced it is investing INR6.42 billion (~\$73.4 million) to set up a 1.6 GW solar cell manufacturing facility. The company's entry into solar cell production complements its existing solar PV module and aluminum frame manufacturing operations.

Alpex Solar manufactures power photovoltaic modules and offers solar system solutions within the renewable energy sector. The company provides automated solar panel production, solar water pumps, and large-scale solar power plant installations.

Alpex Solar's move into solar cell manufacturing comes at a crucial time, as the Ministry of New and Renewable Energy (MNRE) plans to implement the Approved List of Cell Manufacturers (ALCM) starting in April 2026. With ALCM, Indian solar module makers will be required to shift away from importing cheap solar cells from China and instead ...

Alpex is a significant global player in the manufacture highly specialized high power photovoltaic modules and solar systems which are not only world class but also most cost effective. With state-of-the-art technology and highly skilled manpower, we strive to be the best in the Industry.
