

Who is Altergy systems?

Altergy Systems is offers reliable backup power solutions for telecom and delivers proven fuel cell technology. Altergy Systems is offers reliable backup power solutions for telecom and delivers proven fuel cell technology.

Is Altergy systems a new product innovation?

SANTA CLARA, California, Nov. 1, 2018 /PRNewswire/-- Based on its recent analysis of the North American market for backup power fuel cells, Frost & Sullivan recognizes Altergy Systems (Altergy) with the 2018 North American New Product Innovation Award for its Freedom Power fuel cell technology.

How does Altergy's fuel cell technology work?

The technology allows Altergy to manufacture one fuel cell every 30 seconds and the complete fuel cell engine in minutes. "Altergy develops polymer electrolyte membrane (PEM) fuel cells, a grid-free and battery-free power system that can provide long-running, primary, or backup power for various industries.

Altergy Systems is a company that designs and manufactures hydrogen fuel cells. It offers fuel cell engines, hydrogen gas generators, enclosures, and related products. The company caters to the defense, public safety, telecommunications, utility, and other sectors.

Because Freedom Power technology allows Altergy to produce lightweight fuel cells with a compact footprint, they can be safely installed on rooftops and tight spaces where batteries and diesel ...

Altergy's zero-emission proton exchange membrane (PEM) fuel cells deliver the quality on-demand power and ride-through capabilities required for telecommunications, broadband, data centers, traffic signaling, homeland security, and other essential 24/7 operations.

Altergy Systems is a clean technology company that specializes in developing fuel cell systems for backup power, telecommunications, and other critical infrastructure. They are known for their patented, zero-emission hydrogen fuel cells, providing an alternative to ...
