

Endesa, a través de su filial de energías renovables Enel Green Power España (EGPE), ha comenzado la construcción de su primer proyecto solar situado en el perímetro de la central térmica de Andorra. Se trata de la planta fotovoltaica denominada Sedis V, que tendrá una potencia de 49,71 MWp y una inversión asociada de 37,6 millones de ...

L'Oficina de l'Energia i del Canvi Climàtic i l'Andorra Recerca i Innovació han impulsat una nova eina digital, anomenada "potencial.solar", que permet fomentar la generació ...

Spanish utility group Endesa SA said on Wednesday that it has connected to the grid the first solar farm built within the perimeter of its demolished Andorra thermal power plant (TPP) in Spain's region of Aragon. ...

Spanish utility group Endesa SA said on Wednesday that it has connected to the grid the first solar farm built within the perimeter of its demolished Andorra thermal power plant (TPP) in Spain's region of Aragon. The 46.66-MWp Sedeis V solar farm is located on land once occupied by Andorra's now closed landfill.

Endesa's winning project in Andorra is similar to one it recently won 224MVA connection rights for in Portugal, as reported by Energy-Storage.news. The company will invest EUR600 million in deploying 365MWp of solar energy, 264MW of wind energy with integrated BESS of 168.6MW and a 500kW electrolyser which will produce green hydrogen, in the ...

Specifically for Andorra, country factsheet has been elaborated, including the information on solar resource and PV power potential country statistics, seasonal electricity generation variations, LCOE estimates and cross-correlation with ...

Photovoltaic solar energy has the capacity to convert areas with predominantly residential and commercial uses into poles of energy generation centers. By the end of the first half of 2021, Andorra will have 107 photovoltaic installations integrated into buildings, with an installed capacity of 2 638 kWp.
