

Where is Doosan Power Systems located?

Doosan Power Systems' headquarters are located in Crawley, England. Its parent company is Doosan Heavy Industries and Construction (DHIC) in Korea.

Who is Doosan Babcock?

Doosan Babcock is a power sector OEM, construction, upgrade and after-market services company that offers specialist technologies to the fossil-fired power generation, nuclear power generation, and oil, gas and petrochemical industries.

When will Doosan's capital battery be fully operational?

Doosan's battery solution is expected to be fully operational by mid-2023 and support the ACT's shift to total carbon neutrality. France-based renewable energy firm Neoen has finalised a consortium of Doosan Heavy Industries and Construction and its subsidiary, Doosan GridTech, to build the Capital Battery.

What is Doosan's lithium-ion battery solution?

Doosan's lithium-ion battery solution will be deployed at the Capital Battery project. The solution is expected to provide grid stability for the electricity network of southern New South Wales while supporting the ACT's shift to total carbon neutrality by 2045.

Why did Neoen choose Doosan?

Doosan GridTech chief operating officer Wonyoung Ahn said: "We are honoured that Neoen has chosen Doosan to deliver its signature energy storage system in the ACT. "The Capital Battery represents a big step in building our momentum to provide high megawatt grid-scale battery storage systems.

What is Doosan gridtech's intelligent controller?

Doosan GridTech's Intelligent Controller will manage energy arbitrage, fast frequency response and ancillary services for the project. The storage control and optimisation system is built on open standard interfaces and has the capability to offer synthetic inertia or black start services in the future.
