

# Antigua and Barbuda solar electricity for home

How can Antigua and Barbuda reduce energy costs?

Antigua and Barbuda's electricity tariffs are among the highest in the Caribbean region. Allowing private sector participation in the renewable energy market and diversifying the energy matrix in line with the National Energy Policy can bring significant cost reduction.

Does Antigua and Barbuda have a voltage converter?

In Antigua and Barbuda the standard voltage is 230 V and the frequency is 60 Hz. You can't use your electric appliances in Antigua and Barbuda without a voltage converter, because the standard voltage in Antigua and Barbuda (230 V) is higher than in the United States of America (120 V). You can seriously damage your appliances.

Why should you go green in Antigua?

One of the best reasons to go green is the immediate cost benefits, saving you significant money on your electricity bills. With an average five kilowatt-hour system in Antigua, you can save up to \$900 XCD monthly on your electricity bill! These savings can be put to better use to enhance your quality of living.

Source-PV Magazine: A hybrid solar park developed and implemented by Abu Dhabi Future Energy Co. (Masdar) is now operational in the Caribbean nation of Antigua and Barbuda. The Green Barbuda project is a hybrid solar, batteries and back-up diesel project, featuring a hybrid PV plant with 720 kWp of solar panels connected to a 863 kWh battery. It [...]

Now is a great time to go solar! When you purchase a Solar PV system from OWIA Energy Solutions you get peace of mind, knowing we will manage the process from start to finish. No surprises!! We custom design your system based on your homes' unique architecture and take care of every detail right through to connecting it to the APUA grid.

This document presents Antigua and Barbuda's Energy Report Card (ERC) for 2020. The ERC provides an overview of the energy sector performance in Antigua and Barbuda. The ERC also includes energy efficiency, technical assistance, workforce, training and capacity building information, subject to the availability of data.

Antigua and Barbuda Latin America & Caribbean Electricity Consumption in kWh/capita (2020) 3267.7 Getting Electricity Score (2020) 83.5 Average PVout in kWh/kWp/day (2020) ... followed by solar power having 11.11% share respectively.<sup>6</sup> The total installed solar PV capacity has grown at a CAGR of 31.4% reaching 12.9 MW in 2021 from 4.3 MW levels in
