

New Energy - Antigua & Barbuda. We DESIGN, supply and install solar systems to suit your requirements, we supply grid-tie, off-grid and hybrid PV systems for residential and commercial applications, Solar Water Heaters, Solar Pool Pumps & Heaters, Solar Air Conditioners.

The Government of Antigua and Barbuda (GOAB) and PV Energy Limited are taking a major step towards environmental sustainability to create affordable and sustainable clean energy solutions across the islands of ...

Solar Solutions is focused on providing the most innovative Solar, Battery, Wind, & Energy solutions in Antigua & Barbuda. Our mission is to lead economic and environmental sustainability in Antigua & Barbuda through clean energy transitions- with unrelenting passion, quality and a commitment to clients and community.

We have partnered with the industry specialists to deliver the best-in-class solar energy solutions for residential and commercial infrastructures in Antigua & Barbuda. Contact us to get a quote or to know more about our Solar Energy solutions.

Lowering the monthly energy bill without sacrificing any living comfort is desirable for all private property owners across Antigua and Barbuda. Due to its excellent location with one of the best solar radiation worldwide, the twin-islands-state offers outstanding conditions for ...

Antigua and Barbuda have a high solar potential and set a renewable energy mix target of 15% by 2030. Presently Antigua's energy mix is comprised of only 3.5% renewable energy. Its electrical demand peaks at 61MW and its electricity prices are high relative to the rest of the Caribbean.

2 ???&#0183; "Barbuda has shown what we all need to benefit from here on mainland Antigua," Nicholas said, referencing the island's hybrid solar and battery plant, which provides 100% of Barbuda's daytime energy needs. He noted that the hybrid plant operates with diesel generators only during the night and has demonstrated fuel cost savings of up to ...

Solar Antigua is at the forefront of renewable energy solutions, offering cutting-edge photovoltaic (PV) system technology. Our advanced systems are designed to maximize energy efficiency and reduce costs for our customers.

The Green Barbuda project aligns with Antigua and Barbuda's goal to meet 86 percent of its electricity sources from renewable energy by 2030. The bespoke project combines a hybrid solar photovoltaic (PV) plant with 720 kWp of solar PV panels connected to an 863 kWh battery, capable of meeting the island's current daytime energy demand.

The Green Barbuda project is a hybrid solar, batteries and back-up diesel project, featuring a hybrid PV plant with 720 kWp of solar panels connected to a 863 kWh battery. It is capable of fully meeting the island's current daytime energy demand.

The Government of Antigua and Barbuda (GOAB) and PV Energy Limited are taking a major step towards environmental sustainability to create affordable and sustainable clean energy solutions across the islands of Antigua and Barbuda.
