Customers who have systems in excess of 5KW will be governed under the "Buy all, sell all" net billing system. The Customer pays the Utility, at the published tariff rate, for all of the power consumed. The energy produced by the renewable energy system is then credited to the customer at the avoided fuel cost.

The Green Antigua and Barbuda project has already successfully installed "numerous well performing solar renewable energy installations" on the islands. As a next step, PV Energy will manage a 4 MWp solar energy plant in Antigua, saving more than 3000 tons of CO 2 emissions per year. The agreement will also allow for the installation of a 6 ...

The BLF51-5 LV battery system is ideal for new installation of household energy storage. With high energy density and wall- mounted solution, BLF51-5 LV battery system is space-saving for indoor and outdoor installation. To serve increasing load requirement, the flexible expansion can fit your energy demand of today and tomorrow.

Wholesale Lithium-Ion Battery for PV Systems? Simply put, a lithium-ion battery (commonly referred to as a Li-ion battery or LIB) is a type of rechargeable battery that is commonly used for portable electronics and electric vehicles. The popularity of this kind of battery is also steadily growing for military and aerospace applications. In a lithium-ion battery, lithium ions move from ...
