

Antique solar street light square pole bracket

What are antique street lamps and outdoor light poles?

Antique street lamps and outdoor light poles are our specialty. These cast iron municipal-grade light poles are meant for life in a busy downtown environment. Arm brackets available in various configurations designed to fit any outdoor set up. Decorative steel site furnishings weld-fabricated to last a lifetime.

What is a street light pole bracket?

It is used for assembling the light mounting pole to the LED. The other end is affixed on the street light pole and is called the bracket base. The light pole bracket is mainly composed of flat steel and steel tube, both of which are new and do not come in any recycled form.

How much weight can a solar light mounting bracket hold?

Install light poles with a minimum size of 1.5 inches and a maximum size of 3.5 inches. Please note that the thickness is 0.5mm. The solar mounting bracket can hold up to 150 pounds. The solar light mounting bracket is used in outdoor lighting, we do not recommend you install other products more than 150 pounds. DURABLE MATERIAL AND IS TO INSTALL.
