Tapping vast natural gas reserves could make the country a major global energy player--a new government

program can help. Vaca Muerta, located in the Argentine province of Neuquén ...

GENESIS is an advisory team committed to its clients. We provide integral solutions in the areas of sustainability and climate change, sustainable finance and technological solutions. GENESIS was born in 2015 but its origins date back to 2003 when a group of specialists began to work on issues related to climate change and sustainability.

Tapping vast natural gas reserves could make the country a major global energy player--a new government program can help. Vaca Muerta, located in the Argentine province of Neuquén and home to one of the largest shale gas deposits in the world, has long been hailed as the key to making Argentina a major player in the global energy economy.
