Arone Energy specializes in the development and distribution of renewable energy solutions, particularly focusing on efficient battery storage systems. Their flagship product, the Luminar mini, is designed to power essential electronic devices such as TVs, fans, and light bulbs for extended periods on a single charge.

Arone Energy pioneers breakthrough technologies that transform lives by enabling access to green electricity for millions of homes in developing regions. We manufacture low-cost, stand-alone solar grid systems and leveraging smart financing models to reduce upfront costs and increase electricity access.
