Distributed solar energy, normally installed on buildings' roofs, is a faster, less expensive option for the construction of solar farms. They offer consumers the potential for lower cost, higher service reliability, high power quality, increased energy efficiency, and energy independence.

In 2017, we launched "Scale up" to make the company fit for the future and develop it into a Clean Energy Solution Provider, a provider of clean energy solutions. With this programme, we have transferred our expertise from the successful development, project planning and realisation of onshore and offshore wind farms to other fields.

Lowest Prices in Aruba. We understand that solar energy is more than sustainable energy. It's a great investment that's hard to beat, at the correct prices. By buying in wholesale quantities and streamlining our business processes, we can offer the absolute lowest prices on Aruba.
