Are Astronergy solar panels a good choice in Australia?

Astronergy solar panels have been available for home installations in Australia for a few years now and are priced firmly at the budget end of the market. While they've done well consistently in some third-party testing overseas,I'm struggling to get enthusiasm from installers I trust about their performance or Australian support.

Who is Astronergy solar?

The solar panel manufacturing business,Astronergy Solar,was founded in 2006 and is based in Hangzhou. Astronergy also have an EPC capability domestically in the Chinese solar market. The business currently claims to have revenues of AUD\$2.9B and a manufacturing capacity of 12GW spread across China,Thailand and Vietnam.
