An Uninterruptible Power Supply (or UPS) does exactly that, protects your equipment if there is a power failure. In Australia we know how common blackouts and brownouts can be, especially during the. Skip to content ... Sure Power have supplied UPS systems to many clients for over 25 years. Some of our clients come from the following industries ...

I thought the failed part (the Sure Power Industries 4011223 330) was the thing at the top of the wiring diagram labelled "Voltage Regulator, FAN/HOT lamp control, Diff control". However the wiring diagram shows 3 yellow cable from the stator going into that. On the bike, those 3 yellow cables go into the ECM (which as far as I know is working).
