

Virtus Energy has long been involved in renewable energy "resource assessment", a term that implies "where" and "how much". As part of a major project for the State of Texas, Virtus produced a 176 page map-intensive document that examines all major renewable resources in the state of Texas. Since this project is based on physical resources ...

Abundant energy, automated. We're building Energy Artificial General Intelligence (Energy AGI) to automatically and autonomously supply the world with low-carbon energy at stable prices. Virtus is on a mission to facilitate the Energy Transition, focusing on renewable and low-carbon energy. Our activities concentrate on physical energy, related
