Does a Generac home backup generator provide peace of mind?

Laurann M. of Los Angeles, California shares how her Generac home backup generator provides her family with peace of mind. Carlos M. shares his story on how his Generac home backup generator kept his family warm and safe during an unexpected ice storm.

How much power do you need for a home backup generator?

You will likely need at minimum a 10,000 Watt or 10kW generator to power a whole house. There are portable generators, that are cheaper than stationary home backup generators, in the 10,000 and 15,000 watt range. But likely, if you want a true home backup generator system, you will want a stationary generator in the 16,000kW and higher range.

Amazon : Generac 7228 18kW Air Cooled Guardian Series Home Standby Generator with 200-Amp Transfer Switch - Comprehensive Protection - Smart Controls - Versatile Power - Wi-Fi Connectivity - Real-Time Updates : Patio, Lawn & Garden

Inverter generators generally use less fuel, especially if you aren't running at near capacity. Many inverter generators can be paired together to double their capacity when needed. Open frame generators are louder than closed frame. Closed frame generators run hotter than open frame. Portable generators often don't have an oil filter.
