

Going solar has never been easier. Here at Bahama Solar we take care of your project from start to finish. Offering full turn key systems for all residential and commercial operations. Serving all the Bahamas, from Nassau to the out islands. We offer customized solutions tailored to ...

Solar modules or solar panels are the biggest and most important components of any solar system. The solar panels are designed to capture photons from sunlight and converts them into direct current electricity. All panels that we supply come with a 25 year warranty. Inverters. Direct current electricity travels through wire from the solar panel ...

As the technology improves we can add new features like the combined production of hot water electricity that improves panel efficiency four times. Up to 1000 W per panel. We use the latest inverter technology and highest efficiency solar panels to give you the best return on investment possible and a system that will work for at least 25 years.

Whether your solar panels are for your home or commercial installation, and will be connected to the grid through net metering, or completely off the grid, employing local Bahamas solar panel installation experts will ensure your satisfaction and provide for quick follow-up and maintenance.
