

Enough with the noise and fumes! Use cleaner, quieter power with the ESS designed for the most demanding construction projects. And take control of costs with software that shows how your power is being used. Expand the possibility of power, because your energy should be focused on building amazing things -- without trashing the planet.

Compared to fossil fuel generators, Ampd Energy's Ampd Silo and Enertainer energy storage products reduce carbon footprints by up to 90%, are significantly quieter, emit zero air pollutants and eliminate diesel handling and usage risks.

Ampd Energy's systems reduce reliance on fossil fuels by storing excess renewable energy and making it available during peak demand. With over 300 smart battery units deployed across seven countries, Ampd Energy has eliminated more than 69,000 tons of CO₂--equivalent to removing 88,000 cars from the road.

Amp'd Energy Solutions envisions a cleaner planet by utilizing Smart generation that includes renewable energy sources that lower the CO₂ Footprint for a more sustainable future. Our Mission To service and educate commercial and residential clients so they can enjoy the rewards of affordable, clean energy and play a role in our vision of ...
