6 ???&#0183; Garfield Ekon Staff Writer Barbados, December 9, 2024 - When large swathes of invasive seaweed started washing up on Caribbean beaches in 2011, local residents were perplexed. Soon, mounds of unsightly sargassum, carried by currents from the Sargasso Sea and linked to Climate Change - were carpeting the region's prized coastlines, repelling some [...]

The Barbados Investment and Development Corporation (BIDC) and Seabased Group have signed a memorandum of understanding (MOU) to build a wave power park as part of Barbados' effort to advance green hydrogen research and development. Barbados aims to be the leading Caribbean entity driving the green hydrogen transition.

We are incredibly proud that Momentum was awarded the ESG award at the EY Entrepreneur of The Year 2024 last night! This award is both a tribute to our journey as a company and to all our employees who work every day to promote the green transition.

If all goes according to plan, Barbados could soon be producing energy from the ocean and biofuel from the pervasive sargassum seaweed as Government presses ahead with plans to make the island 100 per cent reliant ...
