

By assessing the potential for deploying integrated PV+BESS systems to both support critical community services like education and health care, as well as the potential for downstream enterprise and economic development, this analysis represents a first step that can help inform

Last week (7 November) saw bids opened for a 75MW/300MWh BESS tender launched by the government of Honduras, in Central America. # Infrastructure # storage # batterie share on Facebook

La Empresa Nacional de Energí#a Eléctrica (ENEE) invita a oferentes interesados a presentar ofertas en su proceso de #171;Contrataci#243;n para el estudio, dise#241;o, suministro, instalaci#243;n, pruebas y puesta en servicio de un sistema de almacenamiento de energí#a con baterí#a conectado a la red (BESS) de una capacidad de 75 MW/300MWh, en la ...

Honduras announces a tender for the installation of an energy storage system with batteries (BESS) at the Amarateca substation, aiming to improve electrical supply stability. Deadline: October 23, 2024.

Renewable generation now accounts for 22% of Honduras' electricity mix, but growth has been limited by its transmission system operator (TSO) CND to ensure quality and security of supply. Energy storage will be key to continuing to ensure that while increasing renewables, the CREE said.

Honduras celebr#243; el acto de recepci#243;n y apertura de ofertas de su primera licitaci#243;n p#250;blica internacional para un proyecto de almacenamiento de energí#a en baterí#237;as. Se trata de un sistema BESS de 75 MW/300 MWh, a ubicarse en la subestaci#243;n Amarateca.

A 300MW/600MWh battery energy storage system (BESS) developed by #216;rsted will be co-located with its Hornsea 3 Offshore Wind Farm onshore substation. Flow battery player Invinity claims new product can enable "solar baseload" for the grid

While the U.S. was expected to have nearly 60 GWh of installed battery capacity by the end of 2023, AMI estimates that Latin America had less than 1 GWh of operational BESS projects--a 60x difference. This large gap will be bridged at different speeds based on each country's specific regulations.

Last week (7 November) saw bids opened for a 75MW/300MWh BESS tender launched by the government of Honduras, in Central America. Innergex and Prevalon expanding BESS sites in Chile "to enhance responsiveness to PPAs"
