

What is FNB energy solution?

FNB Energy Solution's development partners are mandated to design efficient and cost-effective solutions that potentially offer immediate financial benefits to clients. This focus on cost-effectiveness ensures businesses can potentially see returns on their investment from day one.

Is Belarus a net energy importer?

Belarus is a net energy importer. According to IEA, the energy import vastly exceeded the energy production in 2015, describing Belarus as one of the world's least energy sufficient countries in the world. Belarus is very dependent on Russia.

What makes FNB energy solution a good investment?

FNB Energy Solution's development partners are mandated to design efficient and cost-effective solutions that potentially offer immediate financial benefits to clients. This focus on cost-effectiveness ensures that businesses can potentially see returns on their investment from day one," it boasted.

Does FNB energy solutions offer a long term PPA?

While many providers in the market require 20- to 25-year commitments, FNB Energy Solutions says it typically offers shorter PPAs, providing businesses with flexibility. This shorter-term approach allows companies to adapt their energy strategies as technology and market conditions evolve.

Is solar power possible in Belarus?

In terms of global horizontal irradiation (GHI) and direct normal irradiation (DNI), most of Belarus receives only 1 100 kilowatt hours per square metre (kWh/m<sup>2</sup>) to 1 400 kWh/m<sup>2</sup> of GHI, and around 1 000 kWh/m<sup>2</sup> of DNI. This means that concentrated solar power (CSP) generation is impractical, but production by means of solar PV is possible.

Does Belarus have a geothermal potential?

Belarus's geothermal potential is relatively undiscovered, with only a few regions having been tested. Of the tested regions, the most promising geothermal energy potential lies in the Pripyat Trough (Gomel region) and the Podlasie-Brest Depression (Brest region), in dozens of abandoned deep wells.

This study presents results of modeling of the reference and alternative scenarios for the development of energy sector of Belarus and demonstrates how the transition towards a widely decarbonized energy ...
