Understand the technologies for BESS available in the market. Identify potential suppliers and contractors with relevant experience that can deliver BESS within BEL's stipulated timeline. Gather preliminary cost estimates for the engineering, construction, and procurement of 20MW/80MWh of BESS.

A double-header of news from Central America and the Caribbean, with Belize seeking consultants for a 40MW storage project and Wärtsilä commissioning a hybrid project in the US Virgin Islands.

The project"s primary implementing agency is Belize Electricity Limited, the country"s main utility and network operator. It comes shortly after nearby Honduras progressed the reform of its electricity market to enable the deployment of energy storage at scale on its grid.

A double-header of news from Central America and the Caribbean, with Belize seeking consultants for a 40MW storage project and Wärtsilä commissioning a hybrid project in the US ...

A battery energy storage system (BESS) facility of 40 MW capacity is sought under the project to enable seamless integration of clean energy onto the national electricity grid to provide uninterrupted supply of power to the country's residents.
