

What is Benel's role in the oil and gas industry?

Benel has robust capacity for project management services using integrated multi-disciplinary teams with expertise in the full range of services required in the industry. This serves to bridge the competency gap of indigenous operators and service providers in the drilling and completions segment of the oil and gas industry.

Which energy source is not included in Burkina Faso?

Traditional biomass- the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important energy source in lower-income settings. Burkina Faso: How much of the country's energy comes from nuclear power? Nuclear energy - alongside renewables - is a low-carbon energy source.

Is biomass a source of electricity in Burkina Faso?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Burkina Faso: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

How long does a power outage last in Burkina Faso?

The average power outage time was 233 hours in 2018, compared with 172 hours in 2017. In addition, the cost of energy remains high for households and businesses, at XOF 75 per KWh of high-voltage electricity in 2019. No on-grid IPPs operating in Burkina Faso

The Netherlands' FMO has provided a EUR200,000 (\$236,000) repayable grant to the Faso Biogaz biogas plant in Ouagadougou from the Access to Energy Fund. FMO's funding will add to EUR1.5m from Faso Biogaz shareholders and a grant from the Netherlands Enterprise Agency (RVO) to complete two biodigesters.
