

Does Benin have electricity?

Electricity consumption in the Republic of Benin is highly dependent on external supplies, with 90% of the country's electricity coming from Ghana (Okanla, 2014, as cited by Kwakwa, 2018). Benin is subject to power cuts and recurrent energy crises, according to Atchike et al. (2020).

Does Benin have a good energy sector?

This paper analyzed the energy sector in the Republic of Benin, a developing country in West Africa that has many problems in meeting the needs of its population for almost all sectors over the last decade, specifically, between 2010 and 2018, in terms of production, consumption, and imports.

Is Benin energy dependent?

In 2015, Benin was energy and electrically dependent at 41.3% and 76%, respectively, which worsened given energy imports at 1319.45 GWh in 2018 relative to 1202.15 GWh in 2017, an 8.07% increase due to a 76.80% drop in national electricity production in this period.

Are wood resources a threat to Benin's forest ecosystems?

Using wood resources to generate energy is a major threat to Benin's forest ecosystems, particularly with respect to accessing other renewable energy sources e.g., solar energy, biogas, etc., which are limited according to Adanguidi et al. (2020) . Fig. 1.

Why is electricity demand increasing in Benin?

Electricity demand in Benin has continuously increased due to rapid population growth, and demand is expected to increase further in coming years.

Does Benin have hydro power?

Hydro power potential According to the Biennial Update Report (BUR,2019) ,Benin has many rivers surrounded by large basins in the West African sub-region,namely the Niger basin,the Volta basin,and the Mono-Couffo and Oueme basins,as shown in Fig. 9.
