

Control Room of an Battery Energy Storage System (BESS) Container Our field personnel complete the final inspection of a Stat-X aerosol fire suppression system in the control section of an battery energy storage container.

The standard voltage in Cabo Verde is 230V, and the frequency is 50Hz. Devices from countries with different voltage standards, like the United States (120V), may require a voltage converter in addition to a plug adapter. Do You Need a Power Adapter in Cabo Verde? Whether you'll need a power adapter depends on the type of plug your devices use.
