

Use our solar calculator to see what size system you need for your home. Contact us today to schedule a free site inspection to get started on saving you cash in your pocket, switching to clean renewable energy and making our island a greener place one roof at a time!

Solar panels are priced per watt. If you install them yourself, expect to pay around \$3 per watt. However, installing them can be difficult. It may cost anywhere between \$5 and \$9 per watt to have the panels installed. Using the above information we can estimate the cost of installing solar energy in an average home for example:

With our calculator, you'll learn how many solar panels your home needs and how much power they will produce. We can then offer a meaningful price comparison between our network of over 300 pre-screened solar companies. We have helped more than 1 million U.S. homeowners find the best solar provider for them.

We offer home solar and battery storage across Guam protected by our leading 25-year warranty. Learn more about GU home solar panels, incentives, cost, tax credits, rebates, frequently asked questions, and savings.
