As for solar charging, the Anker 757 supports up to 300 watts of input, putting it in the middle range compared to similarly-sized solar-capable generators on the market. If you're looking for an ultra-compact solar power generator, we recommend Bluetti's Portable Power Station EB3A.

Is a bluetti a good solar generator?

That's also enough output to power a good chunk of your home grid. The Bluetti AC500 +B300S is currently Bluetti's most powerful solar generator (though there's an even bigger one coming soon). It's designed to provide reliable off-grid power and for homes that need lots of power for backup.

Are solar generators a good investment?

Solar generators can be a pricey investment. Before you start looking at the various power stations and solar panels and package deals available, it's important to know how much you are willing to spend. Underspending on a power station can result in inadequate power needs in the case of a power outage or while adventuring off grid.

Which solar generator should I buy?

With its durable enclosure and ergonomic design, the GB2000 is our top choice if you're looking to take your solar generator outdoors. The 2,106-watt lithium-ion battery packs plenty of power in a relatively compact package, and the "parallel ports" make it possible to connect two units together, effectively doubling the power output.

Should you buy a zendure solar generator?

If that sounds like what you're hoping to do with your solar generator, then by all means give the Zendure package a look, but if you're primarily looking for a unit for backup emergency power or for outdoors use, I'd give this one a pass. Read the Full Story: The Best Portable Solar Panels
