BOS Balance of Storage Systems AG has set its strategic course for growth and is striving for a leading position in energy storage systems and intelligent charging and load management. The aim of the comprehensive strategy of BOS ...

BOS Balance of Storage Systems AG is a German high-tech company, an innovative manufacturer & developer of hybrid energy storage technology. The focus on innovation in smart load management & reliable battery management systems, made BOS energy storage systems & batteries one of the most popular in the caravan/boat industry of the European Union.

The thoughtfully engineered energy storage systems are designed as turnkey solutions making it easy to build and maintain systems up to 300 kWh in challenging and remote areas. In the process, BOS supports customers as an expert and technical partner for customized systems in the commercial and development sector up to capacities in the MWh range.

BOS Balance of Storage Systems AG is a young high-tech company based in Germany. The focus on innovation in smart load management and reliable battery management systems, made BOS energy storage systems and batteries one of the most popular in ...

The BOS Balance of Storage Systems AG is an up-coming company from Germany. Founded in 2014, BOS AG has set itself the goal of becoming a leading provider of off-grid products and services with a focus on lithium and lead (Li-Pb) hybrid storage technologies for photovoltaic systems and intelligent load control.
