

Who owns Bhutan Power Corporation & Druk Green?

Both the Bhutan Power Corporation and Druk Green are owned by Druk Holding and Investments, which exercises oversight in the investment and development activities of the energy companies. Both companies faced decreased profit margins largely because of losses due to increased energy price on repurchase from India.

Why is Tata Power partnering with Bhutan?

Tata Power CEO and MD Dr. Praveer Sinha said, "This partnership reinforces Tata Power's position as a clean energy leader in the region. Together, we aim to support Bhutan's energy ambitions and address growing power demands in both countries with reliable, round-the-clock clean energy."

Why is energy important in Bhutan?

Energy in Bhutan has been a primary focus of development in the kingdom under its Five-Year Plans. In cooperation with India, Bhutan has undertaken several hydroelectric projects whose output is traded between the countries.

Should Bhutan diversify its energy sources?

In the face of climate change and the need for enhanced energy security, the business case for Bhutan to diversify its energy sources, especially by tapping into alternative renewable energy, is compelling. Bhutan is yet to realize its full potential in terms of renewable energy.

How many solar power systems are there in Bhutan?

As of 2015 there are approximately 4,600 solar power systems operating in Bhutan, with 2,750 on-grid systems and 1,848 off-grid systems. The development potential is estimated at around 12,000 megawatts. Solar energy in Bhutan has received direct investment from domestic and international sources.

Who regulates the energy sector in Bhutan?

While the Department of Energy formulates policy, planning, and coordination, the Bhutan Electricity Authority is the main regulatory agency of the energy sector. Since 2006, the Electricity Authority has had the ability to impose differential tariff structures on low, medium, and high voltage consumers.
