

Battery Energy Storage Systems o With 30 years" experience within the battery industry AceOn based in Telford has developed a deep understanding of battery technology o We have a fully dedicated Battery Energy Storage System (ESS) division that offer a UK Sales, Service & Training centre for BMZ Energy Storage Products

Energy storage solutions with integrated security concept are highly efficient and flexible home storage systems for private and commercial applications. With the modular lithium-ion energy storage, the self-generated, currently not required photovoltaic energy can be stored in battery modules and easily retrieved at a later date.

The POWER2RAXX energy storage system offers ideal solutions for a wooden house in the country or a chalet in the mountains. It provides reliable off-grid power and saves electricity costs by optimising the use of solar energy. The system is robust and weatherproof, making it perfect for harsh conditions.

As a leading provider of innovative energy storage solutions, BMZ stands for quality, reliability and the highest technical standards. With the Hyperion Long Life, we offer you a future-proof energy storage solution that optimizes your operational processes and increases energy efficiency.

Get POWER BLOXX - the energy storage system that will make your business thrive! Reduce peak loads, optimise self-consumption and secure emergency power. With POWER BLOXX, you not only harvest sustainable energy, you also harvest efficiency and independence for ...
