

Does Project Sunroof provide information about solar installers?

Yes, Project Sunroof can help you estimate the solar savings potential of your home. It provides information on the potential savings you can achieve by installing solar panels on your rooftop.

What is Google Project Sunroof?

Project Sunroof was created by Google engineer Carl Elkin as a 20% time project. While initially launching only in the cities of Boston, San Francisco, and Fresno, the project now displays solar potential for 43 million homes in the US. Google has previously invested in projects with solar energy provider, SolarCity.

What is sunroof & how does it work?

Initially launched to drive consumer awareness and education, the service now also makes it easy for interested homeowners to connect with solar providers in their area. Sunroof covers 43 million rooftops in the U.S. -- which is more than 50% of all households -- and in the coming months will be available in all 50 states.

Using the power of Google Maps and the Solar API, Project Sunroof provides homeowners with detailed information about their rooftop's solar potential, including the amount of sunlight it receives and the estimated energy production that ...

Antes de instalar un panel solar en cualquier lugar, un análisis de costo-beneficio tiene que hacerse, y Google acaba de hacerlo para todos los EE.UU. en forma de un mapa solar. Como parte del compromiso de Google con las energías renovables, la compañía inició el Proyecto Sunroof en 2015.

How does Project Sunroof work, how accurate is it? In 2015, Project Sunroof was built by Google engineers, led by Carl Elkin, and uses an algorithm to compile data to give homeowners an estimate of their potential solar savings.

Explore estimated solar potential of your community. Updated total solar potential data for cities and regions around the world available in the Environmental Insights Explorer (EIE) . Simply enter a state, county, city, or zip code to see a solar estimate for the area, based on the amount of usable sunlight and roof space.

Project Sunroof is a solar calculator from Google that helps you map your roof's solar savings potential. Learn more, get an estimate and connect with providers. Enter a state, county, city, or zip code to see a solar estimate for the area, based ...
