

Bolivia continues to make efforts to upgrade the infrastructure needed for renewable energy production. The National Interconnected System (SIN), which the government has put in place, aims to improve the nation's capacity for producing electricity by building additional power plants, transmission lines and substations.

International Sales Mana... Resun Solar specializes in providing high-quality and cost-effective solar modules. The company operates two manufacturing factories accredited by ISO 9001 & 14001. All Resun Solar panels are certified by TUV IEC61215, IEC61730, IEC61701, CEC, EMC, LVD, and CE and have been declared PID-free by PI-Berlin lab.

For instance, Bolivia is part of RELAC, an alliance between Latin American and Caribbean countries for renewable energy development. One of its aims is for renewable energy to reach 70% of the regional electricity matrix.

Bolivia es uno de los países que mayor radiación solar recibe en el mundo. Dos terceras partes de Bolivia cuentan con uno de los mayores niveles de intensidad solar del planeta. La mayor radiación solar diaria media anual se presenta en el altiplano, seguido por los valles y, con menor potencial, en el trópico.

Resun Solar è specializzato nella fornitura di moduli solari di alta qualità e ad alto costo-efficacia nelle sue due fabbriche accreditate da ISO9001 & 14001, tutte le catene di pannelli ...

El gobierno de Bolivia prevé invertir al menos 40 millones de dólares en proyectos de generación de electricidad a partir de la energía solar, eólica, geotérmica, micro hidroélica y biomasa. El ...

Resun Solar specializes in providing high quality and highly cost-effective solar modules. With its 2 manufacturing factories accredited by ISO9001 & 14001, full ranges of Resun panels are certified by TUV IEC61215, IEC61730, VDE, CEC, EMC, LVD, CE and approved PID free by PI-Berlin lab and insured by American CHUBB Insurance Group.

Solar PV: Solar resource potential has been divided into seven classes, each representing a range of annual PV output per unit of capacity (kWh/kWp/yr). The bar chart shows the proportion of a country's land area in each of these classes and the global distribution of land area across the classes (for comparison).
