

Gabon hydropower provides more than half (51 percent) of Gabon's current 2,000 gigawatt (gw) of electricity per year, from an installed capacity of 720 megawatt (mw). In 2020, the SEEG launched its emergency water and electricity plan to rehabilitate its 5 mw Bongolo hydropower plant with the aim of restoring its installed capacity and ...

Gabon Power Company develops and co-finance projects to provide cost-effective and sustainable energy that supports Gabon's economic activity. Our projects aim to accelerate ...

Project Gabon. In May 2024, Karpowership signed a contract for 5 years with the Gabon Water and Energy Company (SEEG) to provide electricity with a capacity of 250 MW. Karpowership has been supplying 25% of Gabon's total electricity via two Powerships at ...

Gabon Power Company (GPC) is developing sustainable energy for Gabon. The company researches, designs, builds and operates electricity and water production infrastructure. Established in 2015 through the Gabonese Strategic Investment Fund, GPC now has a variety of power generation projects currently under development.

Deploying a national-level planning process for the power sector, Gabon can demonstrate that it is ready to test innovative approaches to key challenges. Rural electrification is no easy task. Challenges include a sparse and scattered population, hilly terrain with a dense primary forest that complicates travel, and the absence of an operator ...

When commissioned, the plant will supply electricity to Soci t  d'Energie et d'Eau du Gabon (SEEG), the Gabonese utility, under a 15-year Power Purchase Agreement. The project represents one of the largest of its ...

When commissioned, the plant will supply electricity to Soci t  d'Energie et d'Eau du Gabon (SEEG), the Gabonese utility, under a 15-year Power Purchase Agreement. The project represents one of the largest of its kind in Sub-Saharan Africa and a sizeable energy infrastructure project for Gabon.

Gabon Power Company develops and co-finance projects to provide cost-effective and sustainable energy that supports Gabon's economic activity. Our projects aim to accelerate the growth of the economy for the benefit of the population and future generations.
