Will Bosnia and Herzegovina build a new hydropower plant?

As well as new coal capacity, Bosnia and Herzegovina plans a large amount of new hydropower, which is proving even more controversial than the coal plants. In the last decade, more than 100 small hydropower plants have been built, causing widespread public resistance in places like Fojnica, Kruscica and on the Neretvica and Buna.

Is Bosnia and Herzegovina a net exporter of electricity?

Bosnia and Herzegovina (BiH), a country of around 3.5 million people, is currently a net exporter of electricity - the only one in the Western Balkans. More than half of its electricity generation capacity is made up of hydropower, while the remainder is made up of five lignite power plants.

Does Bosnia & Herzegovina use natural gas?

Bosnia and Herzegovina does not have its own natural gas extraction so it is dependent on the Beregovo - Horgos - Zvornik import route from Russia via Ukraine, Hungary and Serbia. Gas use in the country is limited by the distribution network which is only present in Sarajevo, Zenica, Zvornik and Visoko.

Should Bosnia and Herzegovina use more energy?

Bosnia and Herzegovina could do a lot more to use energy efficiently. Electricity prices are kept artificially low and there is therefore limited incentive to make savings. The country is almost four times as energy-intensive as the average in EU countries and has the highest energy intensity in the Western Balkans.

Should Bosnia & Herzegovina cap energy consumption?

To boost energy efficiency and energy savings, it also needs to cap primary energy consumption at 6.5 Mtoe and final energy consumption at 4.34 Mtoe by 2030. In mid-2023 Bosnia and Herzegovina published a draft National Energy and Climate Plan.

Plocno Wind Farm is a 79.2MW onshore wind power project. It is planned in Central Bosnia, Bosnia and Herzegovina. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the permitting stage. It will be developed in a single phase.
