

Should Bosnia and Herzegovina use more energy?

Bosnia and Herzegovina could do a lot more to use energy efficiently. Electricity prices are kept artificially low and there is therefore limited incentive to make savings. The country is almost four times as energy-intensive as the average in EU countries and has the highest energy intensity in the Western Balkans.

Which sector produces res energy in Bosnia and Herzegovina?

Production of RES energy in Bosnia and Herzegovina is dominated by the heating and cooling sector, for which an increase from the baseline 867.2 ktoe to 1085.2 ktoe in 2020 was planned. In addition, the share of electric energy sector in production of RES energy in the planned period increases from the baseline 444.2 ktoe to 760.6 ktoe in 2020.

How much heat energy will Bosnia and Herzegovina produce in 2020?

The planned trajectory for the heating and cooling sector in Bosnia and Herzegovina shows that production of heat energy from RES in 2020 would be 1085.2 ktoe, which represents an increase in production of renewable heat energy by 279.4 ktoe compared to the baseline year.

How much does electricity cost in Bosnia & Herzegovina?

Bosnia and Herzegovina, March 2023: The price of electricity is 0.097 U.S. Dollar per kWh for households and 0.110 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

How many cantons are in Bosnia & Herzegovina?

Namely, the Federation of BiH, one of the two entities making up Bosnia and Herzegovina, consists of ten cantons. The other entity is called the Republic of Srpska. In addition, EPHZHB is preparing to install a 132 MW wind farm, among other renewable energy projects.

Why should Bosnia and Herzegovina adopt the necp?

With the adoption of the NECP, Bosnia and Herzegovina should seek to improve the country's long-term resilience, advance its economic diversification and competitiveness, and to secure its energy supply and sovereignty by harvesting its natural renewable resources.

Ideally tilt fixed solar panels 36°; South in Posusje, Bosnia And Herzegovina. To maximize your solar PV system's energy output in Posusje, Bosnia And Herzegovina (Lat/Long 43.4693, 17.3277) throughout the year, you should tilt your panels at ...
