

Das Mobile Terminal ist ein kleines, handliches Bedienteil zum Einstellen und Aktualisieren aller updatefähigen PowerBox Produkte. Ein leistungsfähiger 32-Bit Prozessor mit Wifi und Bluetooth, in Verbindung mit einem sonnenlichtlesbaren Touchdisplay, sorgen für Smartphone-Haptik.

The PBS-Vario is based on the latest generation of MEMS pressure sensor, and is capable of accurately measuring differences in height of 10 cm. A digital filter developed in-house by PowerBox-Systems ensures that the measured values are completely devoid of noise and distortion; both these features are important requirements if a vario function is to work accurately.

PowerBox CORE Since the introduction of the CORE early in 2019 we have seen the establishment of a steadily growing community of pilots who are determined to make full use of the advantages of this unique radio control system. Ultra-simple programming - even where complex models are involved - redundancy in the battery and radio circuits, and huge potential ...

The P²-BUS, developed by PowerBox Systems, transfers servo and telemetry data simultaneously on one conductor. This simplifies the cabling in the model with conventional servo leads and Uni connectors. All the sensors on the P²-BUS have individual addresses, which are automatically assigned by the transmitter if they are already in use. ...

World Leaders in RC Power Supply Systems. WILLKOMMEN im neuen Online-Shop! NEU-REGISTRIERUNG erforderlich! Sie erhalten 5% RABATT* mit dem Code NEW-SHOP-2024 auf Ihre erste Bestellung im neuen Online-Shop! *Einmalig einlösbar, Mindestbestellwert 50 Euro, nicht mit anderen Aktionen kombinierbar, gültig bis 31.12.2024, nicht in bar auszahlbar, ...

PowerBox CORE - the new generation of pro-class radios. Lead times vary on color, contact us for more information! PowerBox-Systems manufactures high-quality power supply equipment, and has now been working for more than a ...

The PowerBox Pioneer is the perfect 14-channel power supply unit without voltage regulation, designed for HV servos. Since the unit has no voltage regulators, nor the large heat-sink surfaces required for them, it offers ultra-compact dimensions. Even so, the Pioneer still provides redundancy, as is the standard for all power supply units made by PowerBox-Systems.

PowerBox CORE - the new generation of pro-class radios. Lead times vary on color, contact us for more
information! PowerBox-Systems manufactures high-quality power supply equipment, and has now been
working for more than a year on its own independent radio control system. On the face of it we may seem a
little tardy in introducing a new 2.4 GHz RC system, but upon closer ...
