

An essential consideration when establishing an outside solar panel system for the well pump is to buy a mounting rack that provides lots of clearance between your ground and your solar panel and keep it in an open space away from trees.

The team used Domino Clamps as the interface between the Unistrut frame for mounting the solar panels on the roof of the container and the insulated shipping container itself that houses the fridge. The prototype of the Solar Chiller has ...

A team of student engineers at the University of Liverpool have been working on a project with a farming collective in Zanzibar called M'tule Amcos to provide them with a solar powered cold storage...

Solar Solutions in the Virgin Islands Whether you are ready to invest in a complete solar system or are shopping around for other green options, Caribbean Solar Company can help find the right product for you.

This profile provides a snapshot of the energy landscape of the British Virgin Islands (BVI), one of three sets of the Virgin Island territories in an archipelago making up the northern portion of the Lesser Antilles.

ATEC BVI facilitates the transition to renewable energy in the British Virgin Islands and the wider Caribbean region. We are local leaders and pioneers in the development of the micro-grid energy production field.

Solar Island Energy will help your British Virgin Islands business save significantly on energy bills, have reliable, self-contained utilities, improve its long-term value, and be less dependent on fossil fuels.
