

What can Bu energy do for You?

BU ENERGY offers everything you need to provide your customers with a complete photovoltaic system and to use solar energy efficiently and smartly. Get advice on solar energy Learn more about photovoltaic systems Discover the whole world of solar energy. Whether electricity storage, PV module or inverter.

What is BU Energy Solutions?

BU Energy Solutions is a full-service renewable energy consultancy. Originally specializing in battery storage and maintenance, the company has expanded its products and services as the sector has grown. We can advise you and your business at all stages of your journey.

How can Bu energy help you generate and use solar energy?

Generate, use and store solar power easily with BU ENERGY. BU ENERGY offers everything you need to provide your customers with a complete photovoltaic system and to use solar energy efficiently and smartly. Get advice on solar energy Learn more about photovoltaic systems Discover the whole world of solar energy.

What is the Tuvalu solar power project?

The Government of Tuvalu worked with the e8 group to develop the Tuvalu Solar Power Project, which is a 40 kW grid-connected solar system that is intended to provide about 5% of Funafuti's peak demand, and 3% of the Tuvalu Electricity Corporation's annual household consumption.

What is the energy sector development project for Tuvalu?

The objective of the Energy Sector Development Project for Tuvalu is to enhance Tuvalu's energy security by reducing its dependence on imported fuel for power generation.

What are the characteristics of Tuvalu's energy consumption?

Analysis of Tuvalu's energy consumption reveals the following characteristics: o Tuvalu's economy is almost totally dependant on oil. Only around 18% comes from local biomass resources, which is not accounted for in official statistics and is not the object of any active policy.
