

Kardex" first-class automated storage solutions manage oversized, extremely heavy, and long goods in an efficient, safe, and compact manner. Navigate to Kardex . Quick navigation. Content; ... To meet the requirements of different storage volumes, Kardex offers unique designs with one or two storage towers.

Over the years, we successfully implemented solutions to store large and heavy goods on special load carriers and pallets or other standardized load carriers, such as pallet cages. ... With a height of up to 45 meters and providing single- or multi-deep storage, Kardex Mlog high-bay warehouses offer maximum flexibility and optimal use of ...

Kardex"s product range is diverse and variable. Automated storage and retrieval solutions reduce available space by up to 85%, optimally use storage capacity, and enable quick and reliable picking. Dynamic allocation of space means future-proof storage and maximum efficiency, irrespective of how product profiles change over time.

Depending on your individual needs, Kardex offers special storage solutions. As a result, your sensitive goods and their environment are optimally protected at all times. Kardex"s controlled environment solutions meet industry standards and regulations and enable storage under the following conditions: Temperature-controlled ; Dry atmospheres

Associées à des processus de stockage et de picking efficaces et ergonomiques, ces solutions Kardex répondent à vos besoins de stockage. Que vous optiez pour une solution de stockage partiellement ou entièrement automatisée, les systèmes Kardex permettent une meilleure utilisation de l'espace de stockage et réduisent les coûts de stockage.

Kardex"s compact and reliable intralogistics solutions offer high-density storage in a minimum footprint. This saves valuable resources and leads to maximum storage capacity. Via white papers, warehouse insights, case studies and more, learn how warehouses are increasing space, escalating productivity, and implementing efficient processes ...

At Kardex Storage Systems, we serve Florida and Southeast Georgia with innovative vertical lifts and vertical carousels that significantly reduce wait and walk times. Whether operated manually or automatically, our solutions reduce man-hours and storage costs for any industry. Common applications for our vertical storage solutions include:

Kardex is a leading international supplier of automated pallet warehouses and storage and retrieval systems including pallets, heavy, and oversized loads. ... Office Solutions Kardex Megamat 115 / 120 (formerly Lektriever) Software & Control Solutions; Kardex Accessories; VBM Box;

Vertical automated storage and retrieval systems (ASRS) optimize a building by utilizing the entire floor to ceiling height. Based on your storage needs, Kardex offers three vertical storage systems: vertical lift modules, vertical buffer ...

As buffer storage, Kardex automated storage solutions ensure the production area is fully utilized. A wide variety of different products and raw materials are stored here temporarily and provided automatically, when needed for production. **LEARN MORE** Storage of heavy weights Especially in the beverage industry, heavy weights and quantities have ...

At the same time, Kardex's automated storage solutions make optimal use of available space and enable fast and reliable order picking. Learn more Maximum production utilization As buffer storage, Kardex's automated storage solutions ensure maximum production utilization. In this case, the solutions temporarily store multiple and various ...

Kardex" automated storage and retrieval solutions improve order fulfillment by reducing picking errors, minimizing costs, maximizing space & managing demands. ... Or combine several Kardex solutions to meet different needs! ...

Flexible storage solutions AutoStore systems are extremely flexible. They can be adapted or expanded based on your business needs, without impacting ongoing operations. ... "We chose Kardex because we were looking for an experienced ...

The Kardex VBM Box is a storage and transport box that includes a divider system. With dimensions 640 x 440 x 140 mm, the box is perfect for the Vertical Buffer Module (VBM). Storage boxes flexibly divide and quickly adapt at any time by using transverse and longitudinal dividers. The height of the Kardex VBM Box extends in a 50 mm grid using ...

Kardex provides high-density, modular storage solutions for the mechanical engineering industry. Customize a solution to automate storing, buffering, and retrieving material. ... Kardex automated storage and retrieval systems (ASRS) solve these issues and ensure efficient storage and production supply. At the same time, Kardex's warehouse ...

At Kardex Storage Systems, we serve Florida and Southeast Georgia with innovative vertical lifts and vertical carousels that significantly reduce wait and walk times. Whether operated ...
