Solar energy. Solar PV panels Solar for farms Export your surplus energy. Electric Vehicle. EV Charger | EV plans. Smart home. Hive | Smart plans | Smart meters. Special offers. EUR500 off solar panel installation

Projected Growth of Solar Energy in Cambodia. With these opportunities in mind, the government has set ambitious targets for expanding solar energy in Cambodia, aiming to inject 2 GW of solar energy into the grid by 2030 .

The Cambodian Cabinet approved four energy projects this past April, a US\$231 million hydroelectric power and three solar power projects with a combined, rated, maximum power capacity of 140 MW. The latter are expected to come online and dispatch power to the national grid by 2020 and 2021 in four different provinces.
