

What style of custom kitchen cabinets would best fit my home?

If you have a very modern aesthetic, you may want to consider metal or glass custom cabinetry. Homes that have an industrial look may need solid wood cabinets with metal hardware. When designing custom cabinets for a kitchen, there is a wide range of materials available.

Are custom kitchen cabinets worth the investment?

For most homeowners, custom cabinets are their preferred choice. Customizing the cabinetry for a kitchen is the only way to achieve a look that is uniquely yours. It is also the best option to ensure you have sufficient storage to meet your household's needs. When planning for custom cabinetry, it is crucial to work with a designer.

What are the different types of custom kitchen cabinets?

Custom - As the name indicates, these kitchen cabinets are fully customizable. They offer the biggest range of options in style, color, size, and configuration. Stock - These are prefabricated cabinets that come in a limited number of styles, materials, and colors. Stock cabinetry comes in standard sizes and is the most economical.

How much do custom kitchen cabinets cost?

Custom kitchen cabinets cost \$4,700 on average to install and commonly range from \$3,200 to \$8,500, based on the size of your kitchen and the materials being used. Whether you are designing a kitchen completely from scratch or simply doing some home remodeling, one of the most defining features of your cooking area is going to be your cabinets.
