

# Cayman Islands sizing batteries for solar panels

Are solar panels duty-free in Cayman?

However, renewable energy equipment, such as solar panels, are in fact duty-free for residential homeowners. Although Cayman enjoys over 300 days of sunshine, you will need to consider an alternative source of power should there be no sun. One such option is the Tesla Powerwall battery.

Is Cayman the perfect place to harness solar energy?

Significant improvements are being made in the solar energy industry every year and Cayman is the perfect location to harness the power of the sun. Solar energy can be harvested in two ways: solar photovoltaic (PV), which converts sunlight into electricity and solar thermal, which heats water.

What is the standard voltage in the Cayman Islands?

The standard voltage and frequency on the Cayman Islands is 120 V and 60 Hz. For travelers from countries with a standard voltage between 110 - 127 V, such as Canada, the US, and most countries in South America, electrical appliances can be used without a voltage converter.

What is the first commercial solar project in Cayman?

The 20 acre 5MW Solar Farm located in Bodden Town is the first commercial solar project in Cayman. Completed in 2017, this solar farm was also the first Independent Power Producer (IPP) in Grand Cayman, selling electricity to CUC through a Power Purchase Agreement (PPA).

What to do in Cayman if there is no sun?

Although Cayman enjoys over 300 days of sunshine, you will need to consider an alternative source of power should there be no sun. One such option is the Tesla Powerwall battery. These rechargeable lithium-ion batteries are wall mounted and can be stored either outside your home or inside your garage.

CUC offices on North Sound Road (CNS): Richard Hew, the president and CEO of CUC, Grand Cayman's electricity provider, has warned that the island is facing a power generation crisis because the company has surpassed its ability to meet peak demand with its existing fixed diesel generators and is currently resorting to temporary, leased machines...

When a SunPower solar system is paired with battery storage you can have power during short and long term periods when the grid is down. Why GreenTech?
