

What is Grand Cayman's first commercial solar project?

Grand Cayman's first commercial solar project, a 5 MW Solar Farm, was completed and commissioned in 2017. It is connected to the Company's Bodden Town Substation and provides energy to power approximately 800 homes with clean renewable solar energy.

Are solar panels duty-free in Cayman?

However, renewable energy equipment, such as solar panels, are in fact duty-free for residential homeowners. Although Cayman enjoys over 300 days of sunshine, you will need to consider an alternative source of power should there be no sun. One such option is the Tesla Powerwall battery.

Is Cayman the perfect place to harness solar energy?

Significant improvements are being made in the solar energy industry every year and Cayman is the perfect location to harness the power of the sun. Solar energy can be harvested in two ways: solar photovoltaic (PV), which converts sunlight into electricity and solar thermal, which heats water.

Founded in 2008 GreenTech Solar is the oldest renewable energy company in the Cayman Islands and one of the first renewable energy providers in the Caribbean. A multi-award winning renewable energy design-build firm we are focused on providing the most innovative clean energy solutions in the Caribbean region.
