Why should you choose premium Tower TM?

At the same time, the high efficiency of 96.6% in double conversion (VFI) and 99.4% in Ultra-safe ECO mode guarantees maximum energy savings and Lowest Total Cost of Ownership. Premium Tower (TM) provides unity power factor which avoids the need for system over size to support today's power factor corrected loads.

What is premium tower?

Premium Tower offers scalability of up to 7.5 MW and delivers unbeatable energy efficiency in a robust and compact design. The flexibility in the number of battery blocks (20 to 50) allows the system designer to optimize costs vs autonomy time.

What is the short circuit capacity of premium Tower TM?

With a Short Circuit Capability of 3 times nominal current ($3 \times I_n$), Premium Tower (TM) is able to clear output circuit protection in milliseconds. Internal Isolation Transformer
