Where is Central African Republic launching a new solar park?

BANGUI, November 17, 2023 - Today, the Central African Republic is launching a new 25-megawatt solar park with battery storage in Danzi village, located around 18 kilometers from Bangui. The park will supply electricity to 250,000 persons in the capital, almost doubling the country's electricity generation capacity.

Will Central African Republic have electricity by 2030?

By 2030, almost half of the population of the Central African Republic should have access to electricity, compared to only 16% at present. Today, the Central African Republic is launching a new 25-megawatt solar park with battery storage in Danzi village, located around 18 kilometers from Bangui.

Why is Central African Republic investing in electricity?

With an electrification rate of 35% in Bangui, 8% in the main provincial cities and towns, and only 2% in rural communes, the Central African Republic has invested in the energy sector as an engine of development to increase access to electricity and promote sustainable growth.

With an impressive capacity of 25 megawatts and sprawled over an area of 70 hectares, the solar facility houses nearly 47,000 solar panels. This development, part of the Emergency Electricity Supply and Access Project (PURCEL), received approval from the World Bank board back in February 2019.

The Central African Republic (CAR)'s first large-scale photovoltaic solar power plant is now operational. The 15MW Saka's solar project is located near Bangui and was built by China Energy Engineering Group subsidiary, Tianjin Electric Power Construction Company. The plant comprises 33,432 solar panels spread over 16 hectares and is expected to meet 30% of ...

The Central African Republic (CAR) has a new photovoltaic solar power plant. The facility, inaugurated by President Faustin Archange Touadera on 17 November 2023, covers a 70-hectare site in the village of Danzi, 20 km north of Bangui, the capital of CAR.

On November 17, 2023, marking a significant turn in Central Africa's energy landscape, President Faustin Archange Touadera of the Central African Republic inaugurated the region's largest solar power plant. Nestled in the village of Danzi, this World Bank-financed project stands as a testament to the country's commitment towards sustainable energy.
