

CHIKO Solar designs and manufactures high quality solar mounting systems for pitched roof, flat roof and groundopen areas. Whether for small or large-scale projects, standard models or tailor-made systems, we deliver what your need.

By installing balcony mounts, homeowners can harness solar energy to reduce electricity expenses and adopt a greener, more environmentally friendly lifestyle. Chiko is committed to providing efficient photovoltaic products, helping users make better use of renewable energy and decrease their reliance on traditional energy sources.

CHIKO Solar designs and manufactures high quality solar mounting systems for pitched roof, flat roof and ground open areas. Whether for small or large-scale projects, standard models or tailor-made systems, we deliver what your need.

Chiko Solar Ltd. is a prominent player in the photovoltaic mounting industry, specializing in the research and manufacture of various types of PV mounts, including ballasted PV mounting systems. These advanced installation systems securely anchor solar panels to the ground or rooftops of buildings through specially designed structures.

By installing balcony mounts, homeowners can harness solar energy to reduce electricity expenses and adopt a greener, more environmentally friendly lifestyle. Chiko is committed to ...
